To Whom It May Concern,

I am pleased to recommend Kristine (Kris) Trudeau for any position in the field of graphics designer or manager position. I met Miss Trudeau in the summer of 2008. I needed a website design for a book to enhance its visibility. The book was entitled "What do you do if you don't die -- The Steven Fletcher Story".

I was hoping to release the book in late August and I needed a professional website done quickly with little direction from me as I did not have the time to devote to the project. I understand that Kristine was the project manager for my website. She put most of the website together and demonstrated a high degree of creativity in its development. She was able to take the initiative with little direction, and I am very pleased with the end result.

Websites can be notorious for their non-user friendly interface. Kristine was able to put together an excellent website in a timely manner within a reasonable cost. In my line of work I find it difficult to find good graphic designers. However, I have been very pleased with Kristine's products and will indeed go back to her for further projects.

If I can be of any more assistance please do not hesitate to contact me.

Yours sincerely,

Steven Fletcher, MP
